

## WAREHOUSE ASSOCIATE

**Do you want to contribute to a future in which people get back perspective after sustaining neurological trauma? Neuroplast is looking for a Warehouse Associate and GMP facilitator to support their activities in developing advanced medical treatments.**

### **The job**

In your dual role as a Warehouse Associate and GMP facilitator, you will work closely with your colleagues in manufacturing and quality control from Neuroplast. You'll follow the in-house training to familiarize yourself with the Quality Systems, and you'll take on responsibility for the warehouse activities as well as the cleanliness of our facilities according to Good Manufacturing Practices (GMP). These activities include, but are not limited to, purchasing, delivery, and monitoring of critical goods in line with planned activities in the manufacturing and QC departments to facilitate all aspects of our key activities. To do this, you'll plan and coordinate daily warehouse activities, arrange shipments, and ensure supplier and internal documentation is appropriate. You'll further support the flow of goods to and from the cleanrooms and laboratories and ensure the cleanrooms are cleaned and always ready for use. By facilitating these various aspects, you'll play a crucial role in ensuring the products leaving our facility meets the standards required and expected by the patient and regulatory institutes.

### **Our perfect match:**

- You have relevant work experience, preferably in a GMP environment
- Intermediate (MBO) education
- You are a strong communicator in English
- You are accurate, organized, work in a tidy manner, and contribute actively to solving problems
- You are a team player, you enjoy working towards a common goal, also if this (occasionally) means working with your colleagues to get things done outside traditional office hours

### **The organization**

Neuroplast is a diverse, fast-growing, clinical-stage stem cell technology company. Neuroplast develops autologous stem cell treatments to improve and extend the lives of people who suffer from trauma-induced or primarily inflammation-driven neurological disorders. Neuroplast is currently focusing its development efforts on perfecting treatment for acute traumatic spinal cord injury patients. Neuroplast has offices in Geleen, at the Brightlands Chemelot Campus, and at the Slepeweg in Maastricht, the Netherlands.

Neuroplast is a diverse organization, currently employing people from eleven different nationalities. We pride ourselves on being an organization with an open and transparent culture. Encouraging conversation, and welcoming a multitude of perspectives, thoughts and opinions.
